

# Stars Around A Cajun Moon

Adam Hood

Coming home from California  
In a brand new pinned stripe suite  
A hundred dollars in crisp clean 20s down in my cowboy boots

Can't you hear me?  
Just a hummin'  
As I climb on that airplane  
My mind is on a blue-eyed lady  
I can't wait to see again

I'm gonna hold her tight and kiss her  
And tell her how much I missed her  
That the shiny stars in Hollywood  
Don't shine so bright to me  
And the stars around a Cajun moon  
Are all I want to see

It was easy to fall in love  
Willow sounds I hear at night  
Know I lay it down with my head standing  
My heart just wasn't right

There were always cards and letters  
The back home folk were proud of me  
But every line told me about her side  
Swear I had it with me

I'm gonna hold her tight and kiss her  
And tell her how much I missed her  
The concrete stars on the boulevard  
Don't shine so bright to me  
And the shiny stars around a Cajun moon  
Are all I want to see  
Yeah the stars around a Cajun moon  
Are all I want to see
