

Way Too Long

Adam Hood

Old black and white movies on the TV
Empty cam's on the night stand
Fast train but the house isn't settled there

Pickin' old songs on the guitar
I was born a random name
I'm about as lonesome as it gets

Come on baby give it just a little
Why can't we meet in the middle?
I can't do nothing
When you're gone

This place couldn't be any colder
I need your head on my shoulder
My heart's been breaking way too long
Way too long
My heart's been breaking way too long

Worked fast to put so much distance
Between your love and arms
I believe I had the right to know
I'm too tired to drive to Birmingham

So meet me in Tennessee
We'll spend the morning making love

Come on baby give it just a little
Why can't we meet in the middle?
I can't do nothing
When you're gone

This place couldn't be any colder
I need your head on my shoulder
My heart's been breaking way too long

Come on baby give it just a little
Why can't we meet in the middle?
I can't do nothing
When you're gone

This place couldn't be any colder
I need your head on my shoulder
My heart's been breaking way too long
Way too long
My heart's been breaking way too long

Old black and white movies on the TV
Empty cam's on the night stand
