

Just Here To The Left Of You

Adam Pascal

Hit back, it won't hurt you
Lean in, no inertia
Bold is the love that I fight to save
Head on, no collision
Confusion, indecision
I don't believe I'm too far to be saved

Twist and turn me, bait and burn me
Smile and send me to oblivion
Breathe and bathe me, just be and save me
Know I'm just here to the left of you
And when there's only the dark
I can still see the light in your eyes

Dream on, fill me up now
I bet you know just how loud I can scream, don't you let me go
Feed on infatuation
Swallow, just one taste of all that I am, all I have to show

Twist and turn me, bait and burn me
Smile and send me to oblivion
Breathe and bathe me, just be and save me
Know I'm just here to the left of you
And when there's only the dark I can still see the light
When there's only the dark you are always the light

In my eyes
In my eyes
