

## For Ever

Adamantra

Look inside these wounds  
and you'll see why  
I'm alone here  
I am full of fear  
and agony  
I'm trembling  
(My tears in the wind  
eternally)

Draining me  
betraying me  
I'm falling down  
into the bliss  
into oblivion  
Condemned forever  
everlasting darkness  
Why do you follow him  
offering forgiveness  
in your palm

Caught inside my mind  
Scared of what I'll find  
in the losing line

Can not you feel  
my suffering  
Do not you see  
what I can see  
Possessed  
for all eternity  
The unforgiven  
haunting me  
Closing my eyes  
again

The blinding light  
surrounding me  
I'm in a frozen dream  
I fall deep  
to the ground  
across the dark misty air

Draining me  
betraying me  
I'm falling down  
into the bliss  
into oblivion

Condemned forever  
everlasting darkness  
Why do you follow him  
offering forgiveness  
in your palm

Night has thickened  
with ungodly things  
Winds keeps on whispering

Shimmering gloom in the north

Everything happens  
for a reason  
It all has  
means to an end  
All appears delusion  
Just a nightmare of bigotry

Can not you feel  
my suffering  
Do not you see  
what I can see  
Possessed  
for all eternity  
The unforgiven  
haunting me

Closing my eyes again  
Floating  
in a sphere of love  
letting go...

The blinding light  
surrounding me  
I'm in a frozen dream  
I fall deep  
to the ground  
across the dark misty air

Draining me  
betraying me  
I am falling down  
into the bliss  
into oblivion

Condemned forever  
everlasting darkness  
Why do you follow him  
offering forgiveness  
in your palm

Night has thickened with  
ungodly things  
Winds keeps on whispering  
Shimmering gloom in the north
