

On Ember Remains

Adamantra

Inside my nightmares
Battered in chains
Crushed in fear
No one will hear my cries
My spirit is broken
Into a million shards
Decay into dust

Surrounded by fear
And fragments of a memory
Of what remains
Caught in a silent cell
Unfolding
I pray for an omen
Anticipate hell

What strange power
Unleashed the hounds of hell
Barking for blood
The sacrificial lamb of atrocity

Confused of directions
A passage inside darkness
A journey to the clandestine
The hounds of hell
Are closing in
Or are they within
Within me?

Surrounded by fear
And fragments of a memory
Of what remains
Caught in a silent cell
Unfolding
I pray for an omen
