

# Run

## Addison Road

Stoplights, breakdown, we cry, last try  
Worlds collide, time to decide  
Where you want to go in this great big world  
Where you want to go in this great big world

Stuck here too long in this sad song  
Lost on a street, everyone has  
Vanished and you're all alone  
But you don't know where to go  
Yeah you're all alone  
And you want to go home

(CHORUS)

Run just as fast as you can  
Run, 'til you reach the end  
Where the fallen finally land  
And your world starts over again  
Run

Next page, new day, finding my way  
Stumble upon the strength to move on  
I am not alone in this great big world  
And you are not alone in this great big world

(CHORUS)

Run just as fast as you can  
Run, 'til you reach the end  
Where the fallen finally land  
And your world starts over again  
Run

Run now don't you look back  
Run towards the light straight ahead  
Where the lost souls make a beautiful sound  
And new life is finally found  
Run

Your free, free falling  
A new beginning  
This is our time

(CHORUS)

Run just as fast as you can  
Run, 'til you reach the end  
Where the fallen finally land  
And your world starts over again

Run now don't you look back  
Run towards the light straight ahead  
Where the lost souls make a beautiful sound  
And new life is finally found  
Run
