

# Don't You Remember

Adele

Verse

When will I see you again?  
You left with no goodbye  
Not a single word was said  
No final kiss to seal any sins  
I had no idea of the state we were in

Bridge

I know I have a fickle heart  
And a bitterness  
And a wandering eye  
And a heaviness in my head

Chorus

But don't you remember?  
Don't you remember?

The reason you loved me before  
Baby please remember me once more

Verse

When was the last time that you thought of me?  
Or have you completely erased me from your memory?  
I often think about where I went wrong  
The more I do the less I know

Bridge

I know I have a fickle heart  
And a bitterness  
And a wandering eye  
And a heaviness in my head

Chorus

But don't you remember?  
Don't you remember?

The reason you loved me before  
Baby please remember me once more

Verse

Gave you the space so you could breathe  
I kept my distance so you would be free  
In hope that you'd find the missing piece  
To bring you back to me

Chorus

Why don't you remember?  
Don't you remember?

The reason you loved me before  
Baby please remember me once more  
When will I see you again?
