

# Hurt

Adelitas Way

I know I've seen some bad days  
But I never thought it got that bad  
It's only love that's been changed  
But I never thought you'd light the match  
I need you every time that I'm alone  
I feel you please don't go

And I know you lied to hurt me  
Say that I'm not worthy  
I pop another pill and  
I take another hit  
So let's do it again

And I know you lied to hurt me  
Say that I'm not worthy  
I pop another pill and  
I take another hit  
So let's do it again

And now we go our separate ways

In a story that seems so sad  
Am I distant memory  
Like a stranger you never even met  
I need you every time that I'm alone  
I feel you please don't go  
And I know you lied to hurt me  
Say that I'm not worthy  
I pop another pill  
and I take another hit  
So let's do it again

And i know you lied to hurt me  
say that im not worthy  
i pop another pill and  
take another hit  
so lets do it again

And I know you lied to hurt me  
Say that I'm not worthy  
I pop another pill and I take another hit  
So let's do it again

And I know you lied to hurt me  
Say that I'm not worthy  
I pop another pill and I take another hit  
So let's do it again

I know you lied to hurt me  
I know you lied to hurt me  
I pop another pill  
I take another hit  
So let's do it again
