

Somebody Wishes They Were You

Adelitas Way

Paralyzed and you don't know why
Feeling like somebody's fool
Try to find some peace of mind
Maybe you're hiding the truth

Thought it'd be better in a world so cold
But I wanna tell you what I've been told
Life ain't that bad look what you have
Yea yeah

When the highs aren't so high just do what you can
Yea yeah
A world you can change and a life you choose
Cause somewhere out there somebody wishes the were you

In your eyes I see the fight of someone with nothing to lose
Change alone is not set in stone cause I see a lot left in you
Thought it'd be better in a world so cold
But I wanna tell you what I've been told
Life ain't that bad look what you have
Yea yeah

When the highs aren't so high just do what you can
Yea yeah
A world you can change and a life you choose
Cause somewhere out there somebody wishes the were you

Live for it
Go for it
I know that you want it
Life is good

Run for it
Try for it
Live for it
Die for it
Yeah
It's the only shot you have

Life ain't that bad look what you have
Yea yeah
When the highs aren't so high just do what you can
Yea yeah
A world you can change and a life you choose

Cause somewhere out there somebody wishes the were you (3x)
