

# What You Are

Adelitas Way

If I could take it back  
I know that really I would  
If this was all a movie  
You wouldn't even pull  
But I remember when you'd say  
Seems like you even mattered  
Here we go again, insane  
Seems like you would have happened  
To let me be your world  
She let me be...

To let me be your world  
When you...  
She let me be her world  
When you...  
But you didn't matter  
We all knew just what you were  
But you didn't matter  
Take your life for what it's worth  
Cause you never mattered

When I look back again  
Used to think you were better  
I kinda laugh at this  
I used to think you were better  
To let me be your world  
You let me be...

To let me be your world  
When you...  
She let me be her world  
When you...  
But you didn't matter  
We all knew just what you were  
But you didn't matter  
Take your life for what it's worth  
Cause you never mattered

Since you've come  
Life's been wasted  
Few [?]  
I feel good  
Since you're gone  
All the time I've wasted  
I'm feelin' better now  
Gotta keep you on  
I'm feelin' better now  
Gotta keep you on  
I'm feelin' better now  
Gotta keep you on  
I'm feelin' better now  
Gotta keep you on  
I'm feelin' better now  
Gotta give you up

We all knew just what you were  
But you didn't matter

Take your life for what it's worth  
Cause you never mattered  
We all just knew just what you were  
Take your life for what it's worth  
Cause you didn't matter
