

# Trust

Adema

Let me breathe  
Let me breathe

I can't even think right now  
Something's got me feeling guilty  
Hurt you slowly but so surely  
I don't know why, love you so much  
I can't feel because I'm lost  
Not too much mad as no more  
Is it you, is it me, is it us or is it trust?  
Or is it trust?

Pushing into what I want  
Because I am so goddamn selfish  
Left you hanging, stopped relating  
I don't know why, love you so much  
I can't feel because I'm lost  
Not too much mad as no more  
Is it you, is it me, is it us or is it trust?

I'm so alone, empty and lost, it's easier to let you go  
Time will erode the shame and the fault, it's easier to let you go

(Is it you, is it me)  
It's easier to let you go  
(Let me breathe)

Let me breathe

I can't feel because I'm lost  
Not too much mad as no more  
Is it you, is it me, is it us or is it trust?  
Or is it trust?

I can't feel because I'm lost  
Not too much mad as no more  
Is it you, is it me, is it us or is it trust?  
Or is it trust?

I'm so alone, empty and lost, it's easier to let you go  
Time will erode the shame and the fault, it's easier to let you go

I'm so alone, empty and lost, it's easier to let you go  
Time will erode the shame and the fault, it's easier to let you go

Is it you, is it me  
Is it you, is it me

It's easier to let you go  
It's easier to let you go

Breathe  
Breathe

Let me breathe
