What Doesn't Kill Us

Adema

I kill you on the floor
I sit here all alone
And try to find the words that I can't say
We waste them thirty days
We'll both be going our separate ways
Now there's nothing we can fall back on

I know I'm not that selfish
But I cant, I can't help this

Nobody knows what I've done (What I've done)
What doesn't kill us makes us (Makes us die)
And there's a place that I know (I don't know)
What doesn't kill makes us (Makes us die)

There's nothing left for me
But paybacks deaf and next to me
When did I go wrong I don't know
I gotta leave and take what's time
Wasted youth and wasted time
Call these into my stem so they will show

I know I'm not that selfish
But I cant, I can't help this

Nobody knows what I've done (What I've done)
What doesn't kill us makes us (Makes us die)
And there's a place that I know (I don't know)
What doesn't kill makes us (Makes us die)

So give back everything you took from me
Don't believe in me
You don't care about me
I've had my lesson it set me free
Don't believe in me
You don't care about me

No

Nobody knows what I've done (What I've done)
What doesn't kill us makes us (Makes us die)
And there's a place that I know (I don't know)
What doesn't kill makes us (Makes us die)

Makes us
Makes us
Makes us
Makes us
