

All Through The Night

Admiral Freebee

Hey sugar baby
I'm gonna teach you how to dance
Hey sugar baby
I'm gonna show you about romance
And then you will discover
That I can be your lover

I know you think
That I am too hard to handle
I know you think
Some guy can do it better
Baby that ain't right
He ain't ready to fight

And I'm ready all through the night
I'm ready all through the night
All through the night

You want to be
Everything to everyone
Never once what you've shown
Baby that ain't cool
I'm your only fool

And I can be it all through the night
I can be it through the night
All through the night

But don't bother me
In the daytime
Don't bother me
In the daytime
In the daytime

Hey sugar baby
I'm gonna teach you how to dance
Hey sugar baby
I'm gonna show you about romance
And then you will discover
That I can be your lover

You want to be
Everything to everyone
Never once what you've shown
Baby that ain't right
He ain't ready to fight

And I'm ready all through the night
I'm ready all through the night
I'm ready all through the night
I'm ready all through the night
All through the night
All through the night
All through the night
