

## Einstein Brain

Admiral Freebee

She gave me a six month sentence  
For not being charming towards her friends  
With two hands you eat  
One hand to greet  
Everything she said  
Sounded like a repeat  
Since 1983 we did not once agree  
So let's get busy throwing arguements like  
"good taste is equal to sencorship"  
But you can't milk a cow with your hands in your pants

Complexity  
Of the human psyche  
She's flushing my grey cells down the drain  
Tomorrow i'll have  
My einstein brain  
Einstein brain

I said "i hope to see you  
The 23rd of june"  
She said "there seems to be an illusion  
That escapes me"  
Felt like james cagney running outta coca cola  
But you can't milk a cow with your hands in your pants

Complexity  
Of the human psyche  
She's flushing me grey cells down the drain  
Tomorrow i'll have  
My einstein brain  
Einstein brain

Maybe God wanted to make  
Something ugly but in great shape  
As a complexity  
Of the human psyche

I used to go to the opera  
I used to explain  
It's good to explore  
My einstein brain
