

Fools Like Us

Admiral Freebee

Lo-fi angel
All is forgiven
Let's do some loving
Let's do some living

And go find a shovel
To bury our trouble
Lo-fi angel
All is forgiven

And each one gets the honey
Each one gets the knife
But fools like us, baby
Always survive

Fools like us always survive
Fools like us always survive
Fools like us always survive
Survive
Survive

And each one gets the honey
Each one gets the knife
But fools like us, baby
Always survive

Fools like us always survive
Fools like us always survive
Fools like us always survive
Survive
Survive

Fools like us always survive, always survive, always survive
Fools like us always survive
Fools like us always survive
Survive
Survive
