## Adolescents

Ameoba Ameoba Ameoba Ameoba  
Ameoba Ameoba Ameoba Ameoba

We are the scientists our the lab  
Looking through a microscope  
Those little glass slides they never lie  
How can this small mind cope?

I've never seen anything like it before  
This amoeba's got a mind of it's own  
But don't turn your back you stupid science world  
This is reaching for the telephone

Ameoba Ameoba Ameoba Ameoba  
Ameoba Ameoba Ameoba Ameoba

A one celled creature a one celled thing  
It hardly knows it's alive  
You're better off dead if you only knew  
Your growing life is taking a dive

I've never seen anything like it before  
This amoeba's got a mind of it's own  
But don't turn your back you stupid science world  
This is reaching for the telephone

Ameoba Ameoba Ameoba Ameoba  
Ameoba Ameoba Ameoba Ameoba

Ameoba Ameoba Ameoba Ameoba  
Ameoba Ameoba Ameoba Ameoba

Ameobaaaaaaaaaaaaaaaaaaaaa!
