

## California Son

Adolescents

Came to a point, do I laugh or cry?  
Came to a point, do I quit or do I try?  
I called out, do you even exist?  
Why do you ask, came a voice from the missed

Life's just begun  
California son  
Just have some fun  
California son  
Fun in the sun  
California son  
Go have some fun  
California son  
Life should be fun

I asked a priest about the mystery  
Why this heart of darkness consumes me  
Merciful mother, the misery  
What have I done that he'd forsake me?
