

Gets You Through the Night

Adrenaline Mob

You're running round like a big shot
Can't fit your big head through the door
It isn't anything I haven't seen a thousand times before... yeah
I heard you're running off your big mouth
Wanna lay it all out on the floor
You wanna play with the big dice better think twice before you throw
Oh. I hear you, I guess I'm just not fit to understand, oh no...
Say what. I can't hear you, I guess I'm just a fool who don't understand

Whatever makes you feel alright
Whatever gets you through the night baby
Whatever makes you feel alright
Whatever gets you, gets you through the night alright alright

I hear you knocking at my back door, wanna give it one more time around
I'm hearin' rumors that your spreading shit all over town... yeah
That's what they're saying, you know them crooked vultures never lie
Oh you know they never lie haha...

Whatever makes you feel alright
Whatever gets you through the night
Whatever makes you feel alright
Whatever gets you, gets you through the night alright alright

Whatever makes you feel alright
Whatever gets you through the night
Whatever makes you feel alright, whatever whatever

You're running round like a big shot
Couldn't get your big head through the door
It isn't anything we haven't seen 10, 000 times before.

Whatever makes you feel alright
Whatever gets you through the night baby
Whatever makes you feel alright
Whatever gets you, gets you through the night alright alright
