

# Big Electric Cat

Adrian Belew

She arrives like a limo  
Smooth and moving  
On the prow through the crowd  
To the beat of the city  
She glows in the dark  
Wherever she parks  
Concrete crumbles and the night rumbles

Big electric cat

She dances through the street  
Like the flame of a fire  
Everybody's hypnotized  
Everybody perspires  
Even little children cry  
Grown men shout  
The dogs bark  
The lights go out
