## **Adrian Belew**

## **Birds**

Birds, birds everywhere I see I wanna live like they do I wanna be in their trees, So heavenly

Bird, birds everywhere I go I wanna know what they know I wanna live in harmony, So simply

Dear God, I know sometime I'm gonna die And when I do I hope you'll give me one more try Up in the sky with those

Birds, birds everywhere I turn Looking down there's no boundaries Looking down there's no countries, No misery

Dear God, I know sometime I'm gonna die And when I do I hope you'll give me one more try Up in the sky with those

Birds, birds everywhere I see I wanna live like they do I wanna be in their trees, So free
