

# Inner Revolution

Adrian Belew

So welcome to the real world  
Where there's nowhere to hide  
From the pain and hurt,  
You've got to take it in stride  
You say you've got your big problems,  
Baby, join the club  
You won't find the solutions with a gun or a drug

Inner revolution, shake it up baby  
There's something in your life you don't like,  
You got the power to change it  
You can't fix it with a drug, can't kill it with a gun  
Inner revolution, that's the way it's done

So welcome to the real world  
Full of pain and hurt  
Where there's a million excuses,  
And you know what they're worth  
You say you've got your big problems  
Like everybody else  
You won't find any answers until you find yourself

Inner revolution, shake it up baby  
There's something in your life you don't like,  
You got the power to change it  
You can't fix it with a drug, can't kill it with a gun  
Inner revolution, that's the way it's done

When you face yourself; and you look inside  
You see there's nowhere to run, nowhere to hide

Inner revolution  
You've got to shake up your life  
You've got to make it work out  
Inner revolution, you've got to do it yourself
