

# Damaged

Adrian Lux

Come see my broken pleasure  
Come take away the cold  
Don't leave me staking ruthless  
We are damaged, take control

Take control  
We are damaged, take control  
We are damaged, take control

We became violence when we were young and our light  
We can't last through the fire  
Let things burn to survive  
Let things burn to survive  
We are damaged, take control

We are damaged, take control  
We are damaged, take control
