

## Fire

Adrian Lux

When you feel the fire taking over  
Let it make your feelings be evolving

We're too young  
Your heart, whenever goes  
You're too young  
Your heart, will never leave you

When you feel the fire taking over  
Let it make your feelings be evolving

Please let your heart breath in...

When you feel the fire taking over  
Let it make your feelings be evolving
