

Don't Give Up On Us

Adrienne Bailon

Remember when we started
you made it real easy
always brought me flowers
came to my job to see me
Now i'm getting nothing
Barely getting loving
I just wanna get back to where
You would tell me how much you need me
Tell me that you love me
That you miss me baby baby
And your thinking of me
Only, it feels like somewhere in between
Then and Now something have changed
Why you'd start up things again
You wouldn't do late in the game
But I want to get that back
Is that to much to ask for
Baby it's just me
Slowly but Surely it seems
Like your just giving up on us
(don't give up on us)
Don't give up on us
(don't give up on us)
Don't give up on us us us
