Don't Give Up On Us

Adrienne Bailon

Remember when we started you made it real easy always brought me flowers came to my job to see me Now i'm getting nothing Barely getting loving I just wanna get back to where You would tell me how much you need me Tell me that you love me That you miss me baby baby And your thinking of me Only, it feels like somewhere in between Than and Now something have changed Why you'd start up things again You wouldn't do late in the game But I want to get that back Is that to much to ask for Baby it's just me Slowly but Surely it seems Like your just giving up on us (don't give up on us) Don't give up on us (don't give up on us) Don't give up on us us us
