

# Reaching For Me

Adrienne Pierce

I've got this taste  
for things just beyond my reach  
pull me right in, into your sway  
I'm slipping now, sinking under the ice  
nights are getting shorter these days

we dance like the shadows  
we turn and twist but we don't touch  
I can't take it  
the closer you are the less I see  
when it's all too much  
I know you won't be  
reaching for me  
reaching for me...

need to come clean  
no please stop me this time  
'cause even the truth sounds more a like a lie

we dance like the shadows  
we turn and twist but we don't touch  
I can't take it  
the closer you are the less I see  
when it's all too much  
I know you won't be  
reaching for me

So I bite, I bite this tongue until it bleeds  
a tattered heart never wants what it needs

we dance like the shadows  
we turn and twist but we don't touch  
I can't take it  
the closer you are the less I see  
when it's all too much  
I know you won't be  
reaching for me
