

## Closer

Aerosmith

How many times can you turn away  
You fall in love and then love falls away  
You turn out the love when you turn out the lights  
You hit the heavens when you hit the heights  
How can I turn off the flame you know how it kills me

Every time you say love is gone away, I get closer  
It's a give and take every time we break, I get closer  
You get closer too

I love you baby till death due us part  
If love's on a man why not un-break my heart  
You start so many things so why not let's dance  
2 times in love or a one time romance  
How can I turn off the flame you know how it kills me

Every time you say love is gone away, I get closer  
It's a give and take every time we break, I get closer  
You get closer too

And I don't know why we fight  
What's wrong with always being right  
It's always those damndest things,  
Can angels fly on broken wings  
And every night when I'm alone in bed  
I still smell your perfume  
Then I wake up and I swear, I swear  
I still remember

Every time you say love is gone away, I get closer  
It's a give and take every time we break, I get closer  
You get closer too
