

# Legendary Child

Aerosmith

I tell you what I'm talkin' about  
Remember not too long ago  
I was down and out of luck  
I was out to do the dirty deed and didn't give a f...

And then she caught my eye  
The girl was lookin' fresh  
And what was underneath it all  
Was passion in the flesh

If you think you see the devil's horns  
Baby you're so right  
'Cause I been lookin' for an outside fix  
To make my insides right

Your reputation tells it all  
I see the writing on the wall  
O yea as far as I can see  
There is a God 'cause he sent me  
A legendary child

I think that what I'm tryin' to say is  
Just one look knocked me out  
She smiled at me and said  
Aa what I need I think it's love  
Aa give it up is what she said  
Aa give it up and gimme head

I'm a legendary lover  
And tonight you won't regret  
I'll give you legendary lovin' that you never will forget  
And if you want to play with fire, baby now's the time  
Yea 'cause you never taste honey that's as sweet as wine

We played the game of tongue n' cheek  
And loved until our knees got weak  
Had so much class that queen of sleeze  
And rumor has it she's a  
Legendary child
