Think About It

Aerosmith

When will the clouds erode away When will the good people have their say I hope you're still around to see the day Take a while, think about it Take a while, think about it Take a while, think about it Who can tell what is up or down Who can be the king or be the clown Then climb your tree, take a look around Take a while, think about it Take a while, think about it Take a while, think about it Circles of life, infinitane That which is now, will be again Who can decide who is insane Take a while, think about it Take a while, think about it Take a while, think about it
