Oh . . .

Take a walk in the warm New England sun Ain't no time to look for clues You get the point from Uncle Sam's loaded gun Who be the hand that light the fuse

A take a look, take a look at my old billy goat He used to raise all kinds of hell He took a dose of radiation dope A back in the barn is where he felt, like hell

Aar...Lucy, chromosome Lucy, superdome

What makes you think you patronizin' my old friends After you ride in my car, car What do you do when your oil's Mexican OPEC boys, you went too far, too far

Aar...Lucy, superdome Lucy, chromosome Aar...Lucy, papadum Lucy, sing the song

(Ah), dig it up
(Ah), live it up
(Ah), a dig it up
(Ah), live it up

Look out!
