

# Trip Hoppin'

Aerosmith

I got a wild thing for you  
Were talking hoops you got me jumping through  
You got those lemon drop martini eyes  
And if my karma suits you'd cross the line into another place &  
time

Tell me how pretty she is when she turns the colors of the rain  
bow

One more day with you Trip Hoppin  
one more night with you no stoppin  
aint no smoking fantasy cause love you is trippin to me

you got me cycled in size? you got my situation bonified  
it took a sunset to get me to see  
that i all really needed was your love to yeah forever shine on  
me  
you promised promised you & me is like waiting for your ecstasy

that one more day with you trip hoppin yeah  
one more night with you no stoppin  
get my way with you trip hoppin  
in my kaliediscope i'm looking thru my only color was a neon bl  
ue  
i was hanging on to yesterday and now the only way i get thru  
i'll be on my rainbow is my laying down your end of pillow

one more day with you trip hoppin  
one more night with you no stoppin  
aint no smoking fantasy cause love you is trippin to me  
one more day with you trip hoppin  
one more night with you no stoppin  
get my way with you trip hoppin  
one more day with you trip hoppin
