

## Celebrity Sin

## Aesthetic Perfection

I live a lie,  
You live it with me,  
I live a lie and I'll die,  
Desperate to excite you,  
I cut a scene,  
Without an ending,  
You must believe that I'll die,  
Desperate to excite you.

Heaven help me,  
I can't stop it,  
I cannot be saved.

Don't you wanna be saved?  
Don't you wanna be saved?  
You wanna taste fame,  
Don't you wanna taste fame?  
You wanna get laid,  
Don't you wanna get laid?  
You never feel shame,  
Don't you ever feel shame?

Don't you wanna be?

I'll always crave,  
The bitter sweetness,  
I dig a grave for myself,  
Buried in denial,  
These words are scrawled,  
Without a meaning,  
We won't evolve if we die,  
Buried in denial.

I wear a mask to hide myself,  
Pretend that I am someone else,  
I'll take it off so you can see right through me.
