

# The Dark Half

## Aesthetic Perfection

Follow me to the dark  
Into the dead of night  
It's time to see the truth  
To meet the other side

I'll give what you crave  
I'll leave you wanting more  
Cause everything you need  
Is lurking in the core

You gotta get it  
Ohh you gotta get it

You gotta cut that hole inside of me  
You gotta cut deep down below  
To where the beauty digs its hole  
You'll never love and it shows  
For who I truly am

Why must I be a fraud?  
Why must I be a show?  
Why can't I be content?  
To reap the seeds I've sewn?

For all your flattery  
For all your words of praise  
You are only nurturing  
The side of me I hate

You gotta get it  
Ohh you gotta get it

Gotta cut that hole inside of me  
You gotta cut deep down below  
To where the beauty digs its hole  
You'll never love and it shows  
For who I truly am

Run from the one  
In the dark  
He'll never let you go
