

Ascension Of Terror

Aeternus

i am hear to bring fear into your life like the icy north wind
i live i will be there i will tease you endlessly no matter where
you run you will know my name you are bound by might you will
feel the pain i will feel you with terror i will hunt you with
delight you'll be trapped in my cold embrace you will feel
the fear you will know i'll be stalking you i will tease you
endlessly you are bound by might as my prey you will feed my
infinite hunger you will know my name i will gaze into your eyes
and devour you in bliss i will shred your existence beyond
panic - you will - die
