

# The Summoning Of Shadows

Aeternus

Thundering chains of truth  
Entwining the immortal souls  
Of those darkened through eras  
Of hatred - war and betrayal

Coming forth their fiery passion  
Sweeps through the night  
In agony they await  
The glory of destiny's grasp

The truth -  
Sought by those  
Who dance with infinite darkness

The one dream -  
Conjured by torturous lifetimes  
A time not ours

Deeper - deeper we shall dwell  
Higher - higher we shall rise

Floating -  
In a maze of darkened desires  
Their eyes alone  
Reveal the scars of an eternal existence

Awaiting -  
The unveiling of the highest realms  
Where the soul  
Is freed in honour and pride
