

## Beware

## Afghan Whigs

The way people smile and say,  
Using me in every way  
It's okay

Times are changing  
Life is upside down  
No reason to cry now  
Oh no reason to cry now

Beware of who you listen to  
Beware of what you believe  
Ain't nothing I can do to you  
To make you love me

Friends are the reason  
For so many breakups and breakdowns, round town  
So many people think that life is so much fun  
We've only just begun  
Begun to have some fun

Beware of who you listen to  
Beware of who you believe  
Ain't nothing I can do to you  
To make you love me

Beware of who you listen to  
Beware of what you believe  
Ain't nothing I can do to you  
To make you love me

To make you love me
