

The Nephilim

AFI

[chorus]

Swing through sadness, tears of joy.

Curse the sunlight.

Arsenic for the girls and boys.

Drink the madness, smoke so coy.

Smile injection.

Serum of a will destroyed.

The seasons change without me.

I remain in shadows growing wings.

The spirit song still surrounds me, in refrain, in shadows growing wings.

[chorus]

Like an angel with two broken wings, reach to the sky again.

Like a devil, meant for better things, I will find my place on high.

The seasons change without me.

I remain in shadows growing wings.

The spirit song still surrounds me, in refrain, in shadows growing wings.
