## **The Nephilim**

[chorus] Swing through sadness, tears of joy. Curse the sunlight. Arsenic for the girls and boys. Drink the madness, smoke so coy. Smile injection. Serum of a will destroyed. The seasons change without me. I remain in shadows growing wings. The spirit song still surrounds me, in refrain, in shadows grow ing wings.

[chorus]

Like an angel with two broken wings, reach to the sky again. Like a devil, meant for better things, I will find my place on high. The seasons change without me. I remain in shadows growing wings. The spirit song still surrounds me, in refrain, in shadows grow ing wings.
