

## Torch Song

AFI

Oh

I saw you. Angels came to light your path.  
I heard you keep their wings pressed under glass.  
Now am I so enthralled that I might die?  
I saw you, sweetly smile, and say "do try".

(anything)  
I'd tear out my eyes for you, my dear  
(anything)  
To see everything that you do.

I saw you so bereft so pale and weak  
When I looked through  
You and I declined to speak.  
I won't say

(anything)  
I'd tear out my eyes for you, my dear  
(anything)  
To see everything that you do. I'd do  
(anything)  
I'll tear out my soul for you, my dear. oh my dear  
(anything)  
To feel everything as you do. I do

Anything  
Anything... oh

Leave me  
Leave me to grieve that nothing's lost. nothing's lost  
Leave me  
But when you leave me, know nothing's lost. nothing's lost

(anything)  
I'd tear out my eyes for you, my dear  
(anything)  
To see everything that you do. I'd do  
(anything)  
I'll tear out my soul for you, my dear. oh my dear  
(anything)  
To feel everything as you do. I do
