

# Take Over Control

Afrojack

Let's go take a ride in your car  
I will take the passenger seat  
Baby, we don't have to go far  
Unless you wanna show  
Me a lovely place out of town  
Where you feel most at ease  
Well you are the one that I like  
Always will be

I think it's time to let you know  
The way I feel when you take hold  
One single touch from you, I'm gone  
Still got the rush when I'm alone  
I think it is time I let you know  
Take all of me, I will devote  
You set me free, my body's yours  
It feels the best when you're involved

I want you to take over control  
Take over control  
Take take take take over control  
Oh oh oh, I want you to take over control  
Plug it in and turn me on

I want you to take over control  
Take over control  
Take take take take over control  
Oh oh oh, I want you to take over control  
Plug it in and turn me on

I want you to take over control  
Take over control  
Take take take take over control  
Oh oh oh, I want you to take over control  
Plug it in and turn me on

Baby, baby, can't you see?  
That I'm giving all of me  
So, it's up to you now  
We could let time pass away  
I'll make an excuse to play  
But, it's up to you now  
Just wanna fulfill your needs  
While you're taking over me  
So, what do you want now?  
Take a picture, make a show  
'Cause nobody has to know  
All the ways that we get down

I want you to take over control  
Take over control  
Take take take take over control  
Oh oh oh, I want you to take over control  
Plug it in and turn me on

Oh, oh whoa oh  
Oh, oh whoa ooh oh

Plug it in and turn me on

Oh, oh whoa oh

Oh, oh whoa ooh oh

Plug it in and turn me on

Oh, oh whoa oh

Oh, oh whoa ooh oh

Oh, oh whoa oh

Oh, oh whoa ooh oh

Plug it in and turn me on

(On, on, on, on, on...)

Plug it in and turn me on

(On, on, on, on, on...)
