

# She Won't Let Me Fuck

Afroman

Hey sugar, how you doing, huh  
Your pretty face don't match that nasty attitude  
What you mean where my girl  
Probably with your man  
Can we fuck?

She won't let me fuck  
(Baby)  
I really need to bust a nut  
(Ohh)

She won't let me fuck  
(Honey)  
I really need to bust a nut  
(Ohh)

It's so frustrating, yeah  
Being a man  
All these sexy women  
Don't understand

Things we need to do, yeah  
Every other day or two  
Like take you home, baby yeah  
And make sweet love to you  
But you you won't let me fuck

She won't let me fuck  
(You say the mood ain't right, uh)  
I really need to bust a nut  
(I know that pussy's tight)

She won't let me fuck  
(Oh, give it to me, baby)  
I really need to bust a nut  
(Ohh)

Her heart is still broken  
Her emotions are sore  
She's trying to recover  
From the man before

Her ex-boyfriend  
He probably can't see  
That it was easy for him  
But, uh, he made it hard for me  
'Cause she, she won't let me fuck

She won't let me fuck  
(Oh, give it to me, baby)  
I really need to bust a nut  
(You know just what I need, yeah)

She won't let me fuck  
(Girl, you eating all my food)  
(Girl drinking all my beer)  
I really need to bust a nut

(You're smoking all my weed, yeah)

You rub your ass against me  
On the disco floor  
I asked you for your number  
And you said hell no

You always hang around me everyday  
Different women wanna kick it  
But you scare them away

Now I get up ended  
When you come around  
'Cause I'm tired of my organs  
Going up and down  
That sucks  
'Cause she won't let me fuck

She won't let me fuck  
(Oh, give it to me, baby)  
I really need to bust a nut  
(Don't play with my head again)

She won't let me fuck  
(Let me hit it, baby)  
(Yeah, let me hit it, baby)  
I really need to bust a nut  
(Are you a lesbian)

Oh, let me lick it baby  
Yeah, let me stick it, honey  
I'll give you my money  
Girl, you can have it all  
Go ahead and have a ball  
If you want you can take 'em both, baby

In the year 2000  
I see thousand  
Of pretty young women  
I found arousin'  
Grocery store shoppin'  
Magazine browsin'

Many different ways  
To keep their hair styles in  
Full of boredom  
I walk toward 'em

Get 'em close to me  
'Cause I'm suppose to be  
Male aggressor  
Female impresser

Say the right things  
Possibly undress her  
But that's the post game  
This is still the pre game

Silly woman she game  
Baby, what's your name  
Even though I'm a freak  
I play it off like a college geek

Crack a smile and politely speak  
With intelligent to the women I select  
Hoping that she don't detect  
My egotistical chauvinistical lust  
I thrust till I scream like Mystikal  
Yah!

The wrong message I hope I'm not sendin  
Laughin' and pretendin' my dick's not extendin'  
Can't be over zealous she might discover  
She's walking away, bitch, blew my cover

She won't let me fuck  
(You know I love it)  
I really need to bust a nut  
(Please don't change the subject)

She won't let me fuck  
(We could've fucked all night long)  
I really need to bust a nut  
(But your telephone number is bone)

She won't let me fuck  
(Girl, you got a lot to give)  
I really need to bust a nut  
(You dress so provocative, yeah)

She won't let me fuck  
(I can see your lingerie from real far away)  
I really need to bust a nut  
(Bitch, you must think I'm gay)

Aw, don't make me beg  
Baby, let me rub your leg  
Don't make me cry  
Look into my eyes

Girl you so damn pretty  
Stop acting so ...  
Let me rub some oil on your ti hahaha  
Yo I'm up outta here she don't want to fuck 'cuz
