

I wanna lay with you girl
And feel your body over me, yeah
Give me a piece of your time
Then I know that I'll convince ya to be mine

I'm gonna love you, love you so sweet
There is never a time you won't be sexually pleased
Know how to work it, give what you need
Even though I know you've got insecurities

Girl, if I give you good sex tonight
Won't you stay, stay with me another night?
And if I give you good sex tonight
Can we make, make good love for all time?

So baby let's get it on
Undress that body, come close to me, now baby
See how much and how long
I can groove you darlin', keep you warm

I see a lonely tear in your eye
I know you're not too sure about spendin' the night
Won't let you leave me, I'll make it right
'Cause I know just how to do you and I'll change your mind

Girl, if I give you good sex tonight
Won't you stay, stay with me another night?
And if I give you good sex tonight
Can we make, make good love, give you very thing you're missing?

Girl, if I give you good sex tonight
Won't you stay, stay with me another night?
And if I give you good sex tonight
Can we make, make good love for all time?

Tonight you're my baby
We're gonna make sweet love on and on, girl
I'll be lovin' you crazy
We're gonna sex it up tonight
Share good love so right and start all over again

Girl, if I give you good sex tonight
Won't you stay, stay with me another night?
And if I give you good sex tonight
Can we make, make good love for all time? Yeah

If I give you good love, baby
Is that alright?
If I give you good sex, darling
Won't you stay just one more night?

If I give you good lovin'
Then huggin', then squeezin'
Lovin', huggin', squeezin', touchin', baby
Won't you stay just one more night?

Girl, if I give you good sex tonight

Won't you stay, stay with me another night?
And if I give you good sex tonight
Can we make, make good love? All you gotta do is stay

Girl, if I give you good sex tonight
Won't you stay, stay with me another night?
And if I give you good sex tonight
Can we make, make sweet love, make sweet love?

Girl, if I give you good sex tonight
Won't you stay, stay with me another night?
