

## Energize Me

## After Forever

Energize me with a simple touch  
Or with an open heart  
Energize me, fire up this flame  
That's burning between us

It's not a fantasy  
Another mystery  
It's just what I can feel  
And something I can see  
It's like a memory  
And in a melody  
It's just what we all know  
And we all hear

I was blind  
I was closed down  
Could not feel  
Or set it free

Energize me with a simple touch  
Or with an open heart  
Energize me, fire up this flame  
That's burning between us

It lies in everyone  
This swalling energy  
It's all around us too  
Electrifying you  
So can't you set it free?  
This virtue is the key  
Just something we all know  
And we are used

I can feel  
It's inside me  
Open up  
Enlighten me

Energize me with a simple touch  
Or with an open heart  
Energize me, fire up this flame  
That's burning between us

Energize me with a simple smile  
Open up your mind  
Energize me activate that light  
That's given and taken

Can you believe in the power that's burning between us?  
Would you believe if you open up your mind  
Open up your mind

Energize me with a simple touch  
Or with an open heart  
Energize me, fire up this flame  
That's burning between us

Energize me with a simple smile  
Open up your mind  
Energize me, fire up this flame  
That's burning forever
