

Digital Crush

After Midnight Project

You're my artificial escape
The burning inside when I can't sleep
An addiction that I know way to well
My dirty little secret that I'll never tell
I'll never ever tell
I'll be up for hours tonight
I got a digital crush and I can't give it up
but I don't care
I'll sit for hours tonight with my digital crush
She's my virtual drug
I've got her red lipstick smeared across the fuzzy screen
I like it hot and dirty rather than cold and clean
I love it hot and dirty rather than cold and clean
that's what she said to me
Well I just want you to know
This is just a phase don't ever change
HEY I would rather touch your lips than touch these keys
you come first last and always
last and always
(repeat Chorus)
I'll pay the toll for one hour all alone in your world
