

## Above the Law

Against All Authority

Couldn't get in the show  
Hangin' out in the street  
We had nowhere to go  
In the Miami heat  
We were just kickin' the shit  
We were just out havin' fun  
We didn't bother no one  
Four punks in a park  
A big stick in your hand  
It was late it was dark  
You had to prove your a man  
You wear your badge with pride  
A gun close by your side  
You're just a pig motherfucker  
Just a pig  
Above the law  
You motherfucker  
You think you're big  
You're fuckin' nothing but a pig  
You like to push us around  
That's how you have your fun  
You're the law in this town  
You answer to no one  
You swore to serve and protect  
But who protects us from you  
From me you'll get no respect  
It's time to pay your dues  
I think back to that night  
Out in the cold dark street  
I should have put up a fight  
But my revenge will be sweet  
You pushed too far this time  
And I've committed no crime  
You're gonna die pig  
You're gonna die  
In the shadows I hide  
A blade close by my side  
Under a blanket of night  
I keep myself out of sight  
Feel my blade at your throat  
Now on your own blood you'll choke  
Your wound pours out in a flood  
I slip and slide on your blood  
Your body drops with a thud  
I push your face in the mud
