

Crash

Against Me!

What happened to us (what happened to us)
What happened to something that never was
Another crash landing
The teenage dreams don't have shit
And this could kick the bathroom trash cans

Another crash landing
Another crash landing
Let me stay up in your orbit a while
Let me stay up in your orbit a while

Crash landing
Crash landing

Do you sleep with your windows open
Would you watch through mine if you could
I just want to say the words to someone
Like I used to say the words to you

Another crash landing
Another crash landing
Another crash landing
Let me stay up in your orbit a while
Let me stay up in your orbit a while

Good times always getting older
Good times you wish could last forever
Good times always getting older
Good times you wish could last forever
Good times always getting older
Good times you wish could last forever

Crash landing
Another crash landing
Another crash landing
Let me stay up in your orbit a while
Let me stay up in your orbit a while

Crash landing
Crash landing
Crash landing
Crash landing
