So Much More

Against Me!

No you're never gonna be anything more than just another punk b and It's never gonna be anything more than rock and roll Let's play our song, it's been so many times before But you keep on listening because you wanna believe that it's p ossible Abandon artistic integrity Drop all pretensions and just lock into the beat We can have some more in a solid melody Means so much more than the city and state Means so much more than fame and adulation Gonna prove that we're more than our father's sons and daughter S That we're meant for so much more than the future could ever of fer So here we come gunning for revenge It's a little too late for an apology Means so much more than they could ever give to us (2x)

I'm not asking for your acceptance I'm not waiting for you to understand Means so much more than a lover Means so much more than the actor So much more than your complete devotion So much more than you could ever give to me

And Maybe we'll never see our efforts indicated Maybe we'll never amount to anything We're not looking back We're not making compromises We are willing to dare We are willing to dare If I only had more time If I only had more words to explain

So much more than the world could ever give to me (6x)
