

# Suicide Bomber

## Against Me!

You've been making miles in my prison cell mind  
You've been making miles in my prison cell mind  
These are such small, small spaces to go distant in  
I don't take to your breast like I used to  
Thank Christ I'm not contagious

You're gigantic to me  
The way you bring me closer to death  
You're gigantic to me  
You're gigantic to me  
Become wet in my mouth again  
With my heart against you  
You're gigantic to me  
I can't take the weight  
What more can I do?

I'm clinging tight to your chest, explode me  
Like a suicide bomber

You've been making miles in my prison cell mind  
You've been making miles in my prison cell mind  
So unending, so transcending  
There's no expletive could fucking express it  
Like a nuclear [?]

You're gigantic to me  
The way you bring me closer to death  
You're gigantic to me  
You're gigantic to me  
Become wet in my mouth again  
With my heart against you  
You're gigantic to me  
I can't take the weight  
What more can I do?

I'm clinging tight to your chest, explode me  
Like a suicide bomber  
I'm clinging tight to your chest, explode me  
Like a suicide bomber

You're gigantic to me  
The way you bring me closer to death  
You're gigantic to me  
You're gigantic to me  
Become wet in my mouth again  
With my heart against you  
You're gigantic to me  
I can't take the weight  
What more can I do?

I'm clinging tight to your chest, explode me  
Like a suicide bomber  
I'm clinging tight to your chest, explode me  
Like a suicide bomber
