

# Almost Forgot

## Against the Current

Sometimes I get confused  
'Bout how it all went down  
When I feel like I miss you  
I try to block it out

Still remember when we moved into that place too soon  
When we paid too much 'cause we loved the view  
When we just met, and it didn't make sense, but you said forever, And I did  
too, too, too  
Fuck

I almost forgot about you breaking my heart  
I almost forgot what I went through  
Left out the most important part  
It got really bad, we lost what we had  
I almost forgot about you  
I almost forgot (I almost forgot)  
I almost forgot (I almost forgot)

You're still affectin' my mood  
I never let it show (I never let it show)  
I know you're feeling it too  
It's hard to let it go

I remember when I moved out  
And you chased me down  
Yelling, "Don't forget all that we've been through"  
But that's just it, yeah I'm sick of this shit  
I don't want forever if it's with you, you, you  
Fuck

I almost forgot about you breaking my heart  
I almost forgot what I went through  
Left out the most important part  
It got really bad, we lost what we had  
I almost forgot about you  
I almost forgot (I almost forgot)

I almost forgot (I almost forgot)  
I almost forgot (I almost forgot)

Sometimes I get confused  
'Bout how it all went down

I almost forgot about you breaking my heart  
I almost forgot what I went through  
Left out the most important part  
It got really bad, we lost what we had  
I almost forgot about you  
I almost forgot (I almost forgot)

I almost forgot  
I almost forgot (I almost forgot)
