

## Demons

## Against the Current

I read your veins like lines on a map  
But I got no destination  
See the smoke and the signals rise from my breath  
And the flames are cold and patient  
I filled you with a wonderland  
Born of my imagination and  
Go I can't

Cause my demons tied me down  
With silk chains wrapped around my soul  
It seems so obvious  
That I should put an end to this  
But demons take control  
Like toxins in my soul  
I know it seems so obvious  
That I should put an end to this  
Oh no  
They're just demons

I'm pushing through the blood in you  
To heal where you've been hurting  
And I'm so numb I don't feel it run  
When it stains the walls around me  
I filled the room with shades of you  
Drawn in my imagination and  
Go I can't

Cause my demons tied me down  
With silk chains wrapped around my soul  
It seems so obvious  
That I should put an end to this  
But demons take control  
Like toxins in my soul  
I know it seems so obvious  
That I should put an end to this  
Oh no  
They're just demons  
They're just demons

They're just demons  
They're just demons

Staring up the road  
Sick of the darkness and the cold  
The chains are wearing thin  
Oh I'm fighting for us both  
I built this wonderland  
Drenched in the colors of your skin and  
Go I can

Cause my demons tied me down  
But silk chains are broken now  
I know it seems so obvious  
That I should put an end to this  
But demons take control  
Like toxins in my soul

I know it seems so obvious  
That I should put an end to this  
Oh no  
They're just demons  
They're just demons
